MAINTENANCE & FLOORCARE

RESIDENTIAL floorcare

To ensure you retain the optimum appearance & resilience of your new floor, the following guidelines should be followed.

Initial cleaning after your new floor has been installed:

- Avoid walking on the floor for at least 24 hours following completion of installation.
- Sweep or vacuum to prevent loose dirt or grit from scratching the floor.
- Polishing your floor can be beneficial to help prevent slight surface scratches & to provide further protection.

Day to day cleaning:

- Sweep or vacuum the floor to remove loose dirt, grit or dust.
- Use clean mops & neutral cleaning solutions to regularly clean your floor.
- Dilute the floor cleanser to the manufacturer's instructions.
- Mop the floor evenly.
- Collect any excess liquid in a mop bucket.
- Rinse the floor with clean water. Allow to dry.

Regular cleaning is more beneficial to the floor covering & is more cost effective than occasional heavy cleaning.

COMMERCIAL floorcare

Contact your flooring provider for more details.
